## 4.3 Optional Assignment: Graphs

### 4.3 Optional Learning activity: Graphs

1. Find a graph or set of graphs that you like, made by someone else, on a topic that interests you. Write two or three sentences explaining what the graphs say, why the topic is important, and why it is useful to display this information graphically. You should do this in the form of a paragraph including the graph and your discussion.
2. Then add a second paragraph in which you criticize the graphs and offer suggestions for improvement.

**Post your findings in the space below.**
